

CORPORATE DATA SHEET

About Domain Systems

Founded in 1996, Domain Systems, Inc. is a privately held company headquartered in Salt Lake City, Utah with additional offices in Detroit, Michigan, London, England, Los Angeles, California, Daytona Beach, Florida and Toronto Canada.

An information technology and engineering consulting organization, Domain Systems offers state-of-the-art consulting, implementation, integration, customization, deployment and support of enterprise content management (ECM), collaborative manufacturing commerce (CMC), product lifecycle management (PLM), and document/content management (DM) systems.

Domain Systems empowers business with ability; providing rapid time-to-value strategies and technologies that help clients drive business performance, manage mission critical content including revisioning, repurposing and audit trails – all while increasing security and reducing errors.

From our extensive industry knowledge, Domain Systems value-add includes a combined 196 years of business process knowledge, 209 years of industry expertise and 243 years of technical know-how.

Domain Systems has demonstrated our ability to help companies efficiently manage all types of content and, for regulated industries, provide compliance.

Agile Value Added Reseller

Domain is a premier authorized reseller of all Agile Software solutions. We provide a proven complete solution to our customers including business process analysis, implementation, integration, and any desired application development. We increase the already unparalleled value that Agile software provides its customers.

Services

- Analysis of business and content management practices
- Project management ensuring rapid time to value
- Installation
 - Custom adapters
- Configuration
 - Upgrade services
- Customization
 - Customer training
- Data migration
 - Systems integration

Domain Systems value-add includes

- Extensive Industry Expertise
We are laser focused on the discrete and process industries. We understand industry issues and challenges. We bring to your project solid experience.
- Proven Success
Domain Systems has demonstrated our ability to help companies efficiently manage all forms of content. (See partial customer listing below)
- Rapid Time-to-Value
We dramatically reduce implementation times providing faster time-to-value. Utilizing proprietary tools and best practice methodologies, we have a proven record for delivery.
