Long recognized as a leading technology innovator—Oracle provides an integrated suite of applications that can provide companies with immediate access to complete, high quality business information.

With a rich understanding of Oracle technology and a results-oriented approach to mission-critical business systems and consulting services, Domain Systems, Inc. successfully implements Oracle applications to help you:

- Gain strategic advantage and make informed business decisions with immediate access to accurate information in a single database
- Boost productivity, cut costs, and increase revenues through operational efficiency, process automation, and enterprise integration
- Reduce risk and quickly transform your business for increased time-to-benefit

As an Oracle Accelerate partner, Domain Systems, Inc. can ensure that our consultants remain at the forefront of Oracle technology and that our clients receive the highest level of technical expertise and professional consulting services available.

Service Overview: Rapid Agile PLM Implementation Offering

Domain's FastStart Accelerate contains all services you will need to get your organization up and running quickly including:

- Software installation
- Initial Data Migration
- PC Subclass Configurations
- PC Workflow & Criteria Configurations
- Conference Room Pilot
- Documentation of Configuration
- External Access Collaboration
- User & Administration Training

Rapid user adoption occurs as your technical professionals shadow our consultants to ensure that when the system is ready to go, so are your own people. Additional adoption occurs via included face to face training sessions.

FastStart/Accelerate has often provided 90% or more of what customers have typically required in order to get their PLM application into production.

Getting Started from Decision to Go Live: The Process for Success

Domain has a long and successful partnership working on Oracle/Agile PLM products going back to the inception of the Agile product. We are happy to provide references for successful implementations from large enterprise to the small business start up. Domain has completed more successful Agile PLM implementations than any other partner. Domain is also a value added reseller in the SMB market space. Please visit at: www.domainsi.com

Oracle Accelerate—Unlimited Possibilities for Limited Budgets

Oracle and its partners recognize that growing businesses with limited resources demand comprehensive business solutions that are low-cost, low-risk, and provide industry-specific functionality and faster time-to-value.

Oracle Accelerate delivers a complete set of applications, rapid implementation tools, and an extensive partner system, so midmarket businesses can maximize their budgets and achieve real business value quickly. Utilizing a fixed-scope approach, Oracle Accelerate substantially reduces the complexity of more traditional, large-scale implementations.

For customers interested in a rapid, low-risk approach, Oracle Accelerate provides the opportunity to leverage world-class functionality at unprecedented entry-level value.
